[The P.S.B. Foundation Inc.®](#)
would like to thank-you for your contribution
as we continue our efforts in raising
awareness of missing children and aiding in
other's success.

The PSB Foundation Inc was established in 2011 in remembrance of Phylicia Simone Barnes by the Barnes family. Phylicia was a bright 16 year old college bound high school honors student. Unfortunately, Phylicia disappeared on December 28th 2010 while visiting family in Baltimore Maryland for the holidays. She was later found in the Conowingo Dam outside of Baltimore, miles away from where she was staying with family, her life brought to an early end. Phylicia lived a short but very meaningful life that impacted, changed and touched the lives of many people. Although Phylicia's life was brief she left behind a legacy, a story that will be told for years to come. We would like to continue to share that story and touch lives just as she has. Our mission is to aid in raising awareness of cases of missing children and to help those children and others to succeed leading paths of excellence, happiness and fulfillment in life.
